

With Geo-Produkt's worktables your employees will have an ergonomic and excellent working environment

There are already 5.000 who have it thanks to

Weightlifter 300

Steplessly variable vertical adjustment 695 – 1100 mm. A stable and tidy construction. Even and high speed of 22 mm/sec. at a load of 300 kilos. The superstructure can easily be erected. Currentless in state of rest. The construction simplifies cleaning.

The worktables can easily be adjusted to suit the customer's needs with an angle of inclination of the top, a cutting for the stomach and tops for different needs.

CE-Approved
